

P2P non-confirmations 2018-09-22

The following QSOs cannot be confirmed because of one of three reasons:

1. The bands do not match
2. The modes do not match
3. The references do not match

For information, there are 1,556 QSOs lists, although some may be listed twice.

Please check for your callsign, and post to the forum (http://wwff.co/?post_type=topic&p=8817)
